About me

I love to craft digital products using open technologies - with the goal to build unique experiences, improve productivity and expanding knowledge

Technical skills

Programming Languages

Kotlin | Java | Swift | Python | JavaScript

Frameworks

Spring Boot | React Native | PyTorch

Databases

PostgreSQL | MySQL | MSSQL | Oracle | Couchbase

Workflow

Git | Docker | CI / CD (GitLab, GitHub)

Platforms

Linux | macOS | iOS | Android | Kubernetes

Experience

Senior Software Engineer, aXedras AG
since 2022

Automating the precious metal industry value chain with Distributed Ledger Technology (DLT)

`DLT`, `Spring Boot`, `PostgreSQL Database`, `Kotlin`, `Python`, `Kubernetes`

IT System Operations, midix.com ag
2019 — 2022

Management of the Linux based server infrastructure and development of the Java based software product with an Oracle database

`Linux Server (CentOS)`, `Java`, `Oracle Database`

Technical Lead, MANDELKIND
2013 — 2019

Co-Founder, Design & Development of the iOS App Valletti

`Swift`, `React Native`, `Couchbase Database`, `Linux Server (Ubuntu)`

Web Architect, Freelancer
2010 — 2013

Working as freelancer with various companies - primarily focused on web development

`WordPress`, `Railo`, `MySQL Database`, `Java`, `HTML+CSS+JavaScript`
